JACK SCREWS.

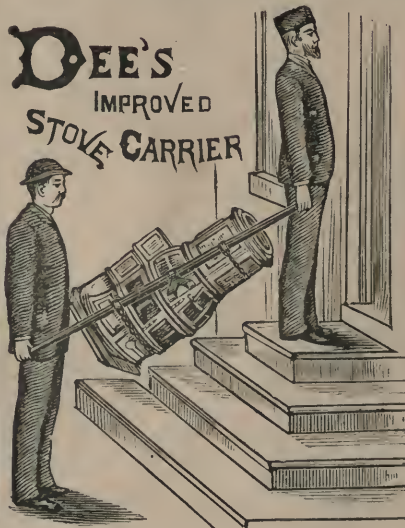

They are forged from the best Refined Iron, the Screw is cut three to the inch, square thread, making a powerful and the best made Screw in the market. Each Screw has a new device for holding on the cap, by which the end of the Screw is below the top of the cap and out of the way of the blocking,

PRICE LIST:

DEVORE'S

PATENT

DOOR SPRING

THE BEST IN THE MARKET.

SIMPLE—As it uses but one wire, needs no adjustment and can never get out of order.

DURABLE—As it is made from the best qualities of Bessamer Steel and will never loose its elasticity.

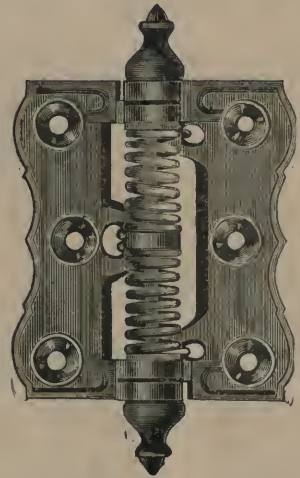

PERFECT—As it shuts the door anywhere from one hundred and twenty degrees, over that holds it open and holds door firmly when shut.

Price Per Dozen, - - \$1.50 Net.

DEVORE'S

PATENT

SPRING HINGE.

The most practical Spring Hinge in the market, **SIMPLEST** in construction and **MOST DURABLE**. Has uniform tension, holds the door firmly when closed, and when the door opens 130° the action of the Spring reverses, and holds the door open.

All the desirable features of a **SPRING HINGE** in a combination so simple that it cannot get out of order, and which we are enabled to offer to the trade at a price lower than any other first class hinge in the market.

Price Per Gross, Pairs, - \$18 Net.

MAY'S SELF-LOADING TRUCK

IS THE BEST TRUCK IN THE WORLD FOR USE IN

Mills, Stores, Warehouses and Transportation Companies.

Patented April 10th, 1883.

They are Perfect Trucks of the Old Pattern, with the following Important Improvements:

FIRST—They will remove full barrels with heads out, without spilling contents.

SECOND—They are self-loaders. Heavy boxes and barrels do not have to be tipped back to load them.

THIRD—You can pick up and set down the heaviest barrels, no matter how closely packed, without touching with the hands.

FOURTH—They are light and easily loaded. One man can do the work of two with the new Truck. They are warranted to carry equally as much as the old style weighing twice as much.

FIFTH—They are made of the best materials—no mortises or tenons to break or split off. They are bolted in every joint, making them the most durable and cheapest Truck in the market.

No. 1 is especially adapted to retail grocers and all retail dealers; No. 2 to heavy retail and wholesale dealers; No. 3 railroad, steamboat and warehouse uses; Nos. 4 and 5 are especially adapted for heavy work.
